| Berta Cabaza Middle School | 11 |
| Miller Jordan Middle School | 14 |
| Riverside Middle School | 16 |
| Elementary Campuses | 19 |
| Appendix | 31 |

The Inside Story

We here at the Transportation Department work diligently to provide the best level of service possible to all of the students of the San Benito school district. In line with this goal, we have purchased software which is designed to assist in routing and planning, field trip archival and dispatch, and most recently, student conduct.

The purpose of this publication is to provide lists of the streets which correspond the residences of students living within the boundaries of your respective campuses. The lists are formatted in the manner in which they appear on the base map of the district. ***As such, it is imperative that that each of you begin to input data to the PEIMS system in the manner in which these streets appear on the list.*** Please note that data should be input in all UPPER CASE letters and that no punctuation (periods, commas, etc.) should be used. North, South, East and West should be input as N S E W, again without punctuation.

These lists are not exhaustive. New streets are being or will be added to our district's map, especially as new sub-divisions are developed. From time to time, there will be (and will have been) changes to your campus boundaries. Correspondingly, each of you can expect there to be revisions to this publication, as needed, and these will be forwarded to you as they are developed. Should a street name be brought to you that does not exist on the list, call the transportation department for assistance, ***before entering the data into the system.***

Your assistance in managing this data will go great distances in the operation, accuracy and efficiency of both our PEIMS and Versa Trans Software systems.
